A WOMAN OF MIND.

A WOMAN OF MIND.

My wife is a woman of mind,
And Fowler, who examined for bumps,
yowed that never was found in a woman
Such large intellectual lumps:
Ideality big as an ogg,
With causality great was combined,
He charged us a dollar and said—
Sir, your wife is a woman of mind!"

She your wife is a woman of mind?

She's too elever to care how she looks—
Will horrid blue speciacles wear,
Not because she believes they give her
A fine intellectual air:
Not she pays no regard to appearance,
And combs all her front hair belind,
Not because she is proud of her forchead,
But because she's a woman of mind?

She makes me n bushel of verses,
But nover a pudding or tart;
It I hint I would like one, the cowe
I'm an animal, morely, at heart!
The I've noticed she spurm not the pastry,
Whone'er at a friend's we have dined,
And has always had two piates of pudding
Such piates for a woman of mind!

Such plates for a woman of mind:

Not a stitch does she do but a dislitch;
Minds her rhyming instead of my clothes.

I haven's a shirt with a button,
Nor a stocking that's sound at the toes.

If I ask her to darn are pair,
She replies she has work more refined;
Besides, to be darning of stockings—

Is it fit for a woman of mind?

Dr. Duponea's Golden Periodical Pilis for Females. Perfectly harmless, yet wonderfulgand po werfully efficacious in correcting regulating, and removing all obstruction from whyseve sause.

All medical men know, as well as many others that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions arrong young females. Healache, Painta the Side, Palpitation of the Heart, Leathing of Pond; and Disturbed Sleep, do most always agise from the interruption of nature; and whenever that is the case, the Fills will invariably cruedy all these evils; andmay always be used successfully as a preventire.—Price SI per box. LEGARTLY bound in embroidered in morococo, git edge, price 75 ets. For sale by C. R. HAMMETT Jr. The Liturgy of the Church of America now offered to the Public, is drawn from various religious writings, and breathes the spirit of the Bible.

The Forms of Adoration and Petition, and its summary of Christian faith and Christian doctrine, sire intelligible and plain. Its Catechism is pure, and beautifully alapted to the comprehension of young minds-enlightening without confusing the.—and preparing the way for holy thoughts and true religion. The work throughout is well arranged, and of a character to demand the close examination of new congregations of faithful men proposing to unite and form themselves into a visible Church of Christ.

The religious feeling which pervades the Liturgy of the Church of America, and its freedom frum—what is too common in liturgical and extemporaneous prayers—an attempt to make the devotions of the Church a means of indoctrinating the worshippers in a sectarian creed, is sufficient to recommend it to attention.

But the Public are particularly called to notice the holy object which it has in view. The purpose of the Church is to provide a Liturgy. which shall comprehend those doctrines, and those only which are essential to guide the mind in a right worship of God. It is obvious had men who differ as to the origin of sin, or as to the precise nature of the atunoident, may neverthelies equally love God.—ind inay be alleke grateful to him for like frierery, and desire his approval, and seek his will, and adore his infinite perfections. They may differ on many theological questions, only et may have the same sentiments of devout trust, and reverential gratiude, and may equally feel the need of divine help. If they may thus agree in what is essential to devotion, why may they not unite in religious worship? If they will abstain from obtrading into the act of worship those theological speculations which have on necessary connection with it, wiy may they not undivinc

inprovenents, making it a desirable and active place of business.

THE INTENTEMPERATE AND INEBRITATE WILL find instant relief from the horrible feelings produced by the use of bad antoxicating liquors.

Union Saving.

The Union has been so often on the brink of destruction during the last few Street, have been progressing through the win the "Union is in great danger," and can to be warm, has been quite close and sharp-

South are unable to bring about so important a result. Is it possible that the only friends of the Union and the Consti-tution are north of Mason and Dixon's

meetings, and make other similar manifestations showing what great sacrifices they are willing to make in order that the " glorious Union" may be saved.

In 1856, these Union savers told us that Millard Fillmore must be elected, or that was the last of the Union. Nine out of ten of the Southern papers thundered out that unless the North supported Fillmore, destruction was at hand, and many of us believed it, or " took in whole," as the boys say; but had we carefully examined the same Southern papers which were constantly volunteering this advice, we should have observed that it was given only for the a drunken person who was placed by the deluded devizens of the North. Southern | police in my barn on Frank Street, instead ers were advised by the same oracles to vote Union. Now it seemed rather remarkable to us that Fillmore had to be voted for at the North, and Buchanan at the South, to bring about the same result; and yet, Northern men did not appear to see any inconsistency in the recommendations of Southern demagogues and Southern newspapers; they were bound to save the Union, and they went at it with a vengeance .-The result showed the election of James Buchanan by Southern votes, and then their eyes began to open, and they became aware that they had been deceived; that the Union, after all had never been in groat danger, and that they had been instrumental in electing a Democratic President for the especial purpose of serving the interests of the South. This great bugbear which is brought out regularly every four years to frighten the timid and superstitious " white slaves " of the North, as Gov. Hammond calls us, is always stowed away as soon as election is over, and kept carefully that views can be taken in a fraction of a scoout of sight until another four years rolls over, when it is again necessary to scare us into shape, so it is brought out still more bideous than before, and those who thought they never would be again humbugged,

brought out, and propped up more substantially than ever, which has proved necessary, for it is now old, and its legs are quite weak; possibly it is affected with the black rot, and it presents a more feeble aspect than ever before, and " the birds," are evidently getting used to it. A new plan has however, been adopted, by which it is haned that it will be made to go,-We now hear that Union meetings are lost. being held in various parts of the country.

BATH. Maine, Jan. 29, 1859.

Prof. O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative. I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. Isoon found it was proving what I had wished. I used it about a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resum d its natural solor, and I believe, more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two has used it with the same effect.

The above notice I deem due to yon for your valuable discovery. I am assumed that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a clibren of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at you service, as I wish to preserve the beauries of nature in others as well as myself. I am, truly yours.

BROOKFIELD, Jan. 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflamation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

The Restorative is put up in Bottles of sizes, viz: large, medium and small; the small holds I 1-2 a pint, und trails for one dollar per battle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent, more in proportion and ret dls for \$83 a bottle.

TEMPORT DAILY NEWS

FROM WASHINGTON.

pordene.]—The Executive session of the Senate to-day was probably the most vicient that ever disgraced that body. Mr. Clingthat ever disgraced that body. Mr. Cling-man mad a severe speech against the elec-tion of Mr. Seward. Mr. Doolittle replied to Mr. Clingman and charged upon the South with severity, when Toombe gave the lie to Doolittle, and the latter fluggit back. Consternation followed, and them a hurried adjournment. Old Senators say there has not been so stormy an Executive session since the rojection of Mr. Van Buren and the attempted rejection of Edward Everett.
The difficulty grew out of the charge brought by Mr. Wilson, that Mr. Faulk-ner, the nomines to the French mission, was a disunionist.

Committee commenced to-day the examination of Mr. Arny, a member of the Kansas National Committee. He informed the Committee that he was acquainted with matters spertaining to Brown's op-erations in Kansas which may throw some erations in Annas which may throw some tight upon his ambsequent movements at Harper's Ferry, but that before testifying he would be obliged to return to Kansas to procure certain books and papers so that he could give a more full and accurate statement of money placed in his hands by individuals and committees, and how it was appropriated, thereby showing how it was appropriated, thereby showing definitely how much was paid to Brown, by whose order and for what purpose. Information was received here to-day

that 3500 men ere now in New Orleans ready to embark for Vera Cruz. They go out as emigrants, and wilt be received into citizenship by the Jaurez government, when they will be mustered into service under American officers such as Generals under American omeers such as Generals Ring and Wheat, and will sustain the Lib-eral government until the Senate ratifies the McLane treaty. The leaders of this expedition expect as a reward for their services, the renewal of the grant for a sailrond from Araugas Bay in Maratlan, the original charter for which was granted un-der Santa Anna. The emigrants are to emain as laborers in the construction of this railroad, keeping up meanwhile, their military organization for self-protection.

Blood Food!

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—aregular physician of twenty years 'practice—as a last resort, conceived the idea of AN-ALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from which, Dr. Bremson was restored to perfect health, Within six months after its introduction, over two thousand consumptives were effectually curred by it. THE CHRISTIAN LITURGY.

THE CHRISTIAN LITURGY.

The Liturgy of the Church of America now offered to the Public, is drawn from various celipious writings, and breathes the spirit of the Bible.

The Forms of Adoration and Petition, and its aummary of Christian faith and Christian doctrine, are intelligible and plain. Its Catechine in the spirit of the Bible.

The Forms of Adoration and Petition, and its aummary of Christian faith and Christian doctrine, are intelligible and plain. Its Catechine in the spirit of the Bible.

The work thought of the spirit of the comprehension of young minds-senlightening without confusing the ...—and preparing the way for holy thoughts and true religion. The work throughout is well arranged, and of a character to demand the close examination on meacompregations of faithful men proposing to unite and form themselves into a visible Church of Christ.

The religious feeling which pervades the Liturgy of the Church of America, and its freedom from—what is too common in liturgical and extemporancous prayers—an attempt to make the devotions of the Church a means of indoctrinating the worshippers in a section of the Church is a section of the Church a means of indoctrinating the worshippers in a sec-

ofindoctrinating the worshippers in a sec-tarian preed, is sufficient to recommend it to

cat and extemporaneous prayactions of the Church a means of indoctrinating the worshippers in a sectarian viced, is sufficient to recommend it to attention.

But the Public are particularly called to molece the holy object which, it has in view. The purpose of the Church is to provide a Liturgy which shall comprehend those doctrines, and those only, which are essential to guide the mind in a right worship of God. It is obvious that men who differ as to the origin of sin, or as 'to the precise muture of the atonement, may nevertheless equally lave God, and may be alike grateful to him for his mercy, and desire his approval, and seek his will, and adore his infinite perfections. They may differ on many theological questions, and yet may have the same selliments of devout trust, and reverential gratitude, and may equally feel the need of divine help. If they may thus agree in what, is essential to devotion, why may they are the sessential to devotion, why may they are the sessential to devotion, why may they not thurst in religious worship? If they will abstain from oltruling into the net of, worship those theological speculations which have no necessary connection with it, why may they all adore?

The Liturgy of the Churcu of America does not profess to teach a creed, but to give expressions to thuse feelings which thould be in man's heart when he looks up to God. It would leave the theological questions on which seets divide to be settled by each individual in his num way, while it would draw all Christian peuple nucleier, in the sentiment and offices of devotion.

The Christian Liturgy, published in 1847, for the Church of America, is based on the Book of Cummin Prayer used by the Episcopal Church, or Church at Encland, in this country; much is added to the devotional port, and more substracted from the decrinial fart; and in approaches considerably to the Church of America.

CAUTION.

Persons living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets The country is flooded with bogus and swinding Lotteries. Every inducement is held out to get persons to invest money in doon—Capital Prizes of from \$20,000 to \$40,000 head their schemes—with Tickets at One Dolhar.—\$400,000 Capital Prizes are effected. Tickets \$5. All such, in every instance, are frauds, and if money is sent to them for Tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Trize is unusually large in comparison to the price of Tickets. In every instance where large Prizes are offered for a small cost of Tickets, put if down for a certain fraud. CAUTION.
